

# SACA ROAD BULLETIN

Seymour Arm Community Association

## Road Update:

April 23, 2010

I have received the following from Forestry roads:

We are planning on spreading the last of the aggregate and calcium and re-grade the road starting April 26, 2010. There will not be any road restrictions but may be minor delays, flag people will be on site. Project should last 5-7 days. Please use caution while traveling on the Seymour Main from 0 to 41 km .

Please all drive safe, the road is wonderful, lets all live for tomorrow. Have a great summer.
