

Argo Road Update:

Sept 24, 2009.

The following is as received from Argo Road maintenance.

We have received documentation from the Ministry of Transportation and Highways with regards to sign installations within the Seymour Arm area town site and have placed that order through our purchasing agent. Upon receiving delivery of the signs, we will appropriately schedule the installations.

With regards to the grading, we will commence this activity once more moisture arrives in the form of rain showers from, mother nature.

John K. Castle,

Director Roads, SACA
